Upper Dauphin Area High School Musical—Guys & Dolls

Elizabethville, PA. Central Penn Productions provided sound and lighting for the 2010 musical at Upper Dauphin Area High School. Both performances contained 16 Audio Technica Wireless Mics to ensure that all major speaking and singing parts were heard. Parents and other attendees were pleased after another year of production by Central Penn. “We attempt to make the production unnoticeable” says FOH engineer Nathan Oakley. “Our objective is to ensure the audience experiences the drama of the show rather than the distractions often associated with high school musicals.”

If your school district is in need of production services including mic rentals, lights, engineers or equipment maintenance, please contact CPP to make sure your musical is a success!
